To register: visit <https://commerce.cashnet.com/PalliativeCareInstitute>

Early Bird rates until March 15. Scholarships available.

Email pci@wwu.edu

PCI's Spring 2019 Conference will feature keynote speakers, breakout sessions and some complicated case studies to illustrate how our cultural identities and belief systems influence how we interact and engage with the patients and families we serve, and also examine how these elements impact family decision making when facing serious illness or death or after death care.

Together we will investigate how the medical model's "culture" can impact how patients and families make medical decisions at the end-of-life, explore the importance of understanding and respecting culture at the end-of-life, examine ways that inequity impacts palliative care patients and learn how to promote health equity on our teams or at the institutional level.

Visit <https://pci.wwu.edu/palliative-care-institute-spring-conference-care-across-cultures> for more details.
